

Raffle Quilt Block: Curved Log Cabin

For this year's raffle quilt we're making curved log cabin blocks. There is no curved piecing; the curve is an illusion created when you put all the blocks together. This block is just as easy as a regular log cabin block, except the strips aren't all cut the same size. It's a great stash buster!! **Blocks are due at the October guild meeting, Saturday October 13th.** We're using this Missouri Star Quilts tutorial: <http://land.missouriquiltco.com/curved-log-cabin/>

Our color scheme is whites/off whites/creams for the skinny strips and cool colors for the wider strips - think brights and jewel tones, like sapphire, bright blues, emerald, royal purples, teals, etc. Please avoid pastels. Cut ONE of each:

White/Off-White Cream	Cool Tones
B 1.5" by 2.5" strip	A 2.5" Square
C 1.5" by 3.5" strip	D 2.5" by 3.5" strip
F 1.5" by 5.5" strip	E 2.5" by 5.5" strip
G 1.5" by 6.5" strip	H 2.5" by 6.5" strip
J 1.5" by 8.5" strip	I 2.5" by 8.5" strip
K 1.5" by 9.5" strip	L 2.5" by 9.5" strip
	M 2.5" by 11.5" strip

Start with your center square (A) and add strips B and C, moving clockwise. Continue in alphabetical order.

Please use a SCANT quarter-inch seam. You will finish with an 11.5" block. I recommend pressing toward the dark fabric.

Raffle quilt assembly will be on Sunday October 14th at St. George's Church, 550 Ridgewood Road, Maplewood, NJ from 3-6 PM. This is a change from what was announced at the September meeting. All are welcome. Maplewood is a short train ride from NY Penn Station NJ Transit station. Please contact eggshow@gmail.com or see Aleeda or Betsy at the October meeting to arrange a ride to the church from the Maplewood train station, if necessary. Extra machines are available.

Here are some samples:
