

# Assembly Instructions

*Thank you to member Marge Geary for these instructions.*

On a large flat surface, layer (top to bottom): Batting, Top Fabric (right side down), Bottom Fabric (right side up). The right sides of your top and bottom fabric will be together. Sew around the border of three sides, and 3/4 of the way around the fourth side. Leave an opening and turn the quilt inside out. Your top layer will be in place, with the batting in the middle and the bottom layer on the bottom &mdash; just where they all belong! You are now ready to quilt or tie!

## Layer:
